

Learner Engagement

This is the Learner Engagement Policy Statement of GEN2 Engineering and Technology Training Ltd.

This is an organisational approach and the Senior Leadership Team is fully committed to drive this policy in order to remove any barriers to learning whilst ensuring that equality and diversity principles inform all learner activity.

Harry Stevens
Managing Director

Gen2 is committed to actively encouraging all learners to participate in decisions affecting their learner experience, which will subsequently enable learners to have a positive experience, play an active role in improving provision and the needs of the learner will be the foundation of our delivery and quality improvement system.

Learners are also encouraged to participate in a wide range of enrichment activities eg: Open Evenings, Learner Fairs, National Apprenticeship Week, Community and Charitable Events within our local community.

The Learner Engagement Policy is an integral part of Gen2's quality improvement process and is embedded throughout the company to ensure that learner representation is strong resulting in a quality learning experience.
